

ISPAS Accreditation Guidance Notes (v3. January 2016)

Accreditation is for those with relevant experience of performance analysis support with sports teams and individuals. Please consider the following criteria before selecting the level you wish to apply at and provide information to assist the accreditation panel who will review each application and provide email confirmation of the level awarded alongside displaying the accreditation details on the website for validation.

Individuals who meet the minimum standards for level 1 or 2 accreditation will receive the generic ISPAS accreditation, after these levels there are two pathways, the applied and the scientific routes. Individuals should refer to Table 1 (see below) for required competencies and decide which route and level they wish to apply for. Please note that all criteria at any lower levels must be satisfied for accreditation at higher levels.

Once payment has been received, we typically expect to assess applications within 4-6 weeks.

International Society of Performance Analysis of Sport Accreditation Pathway

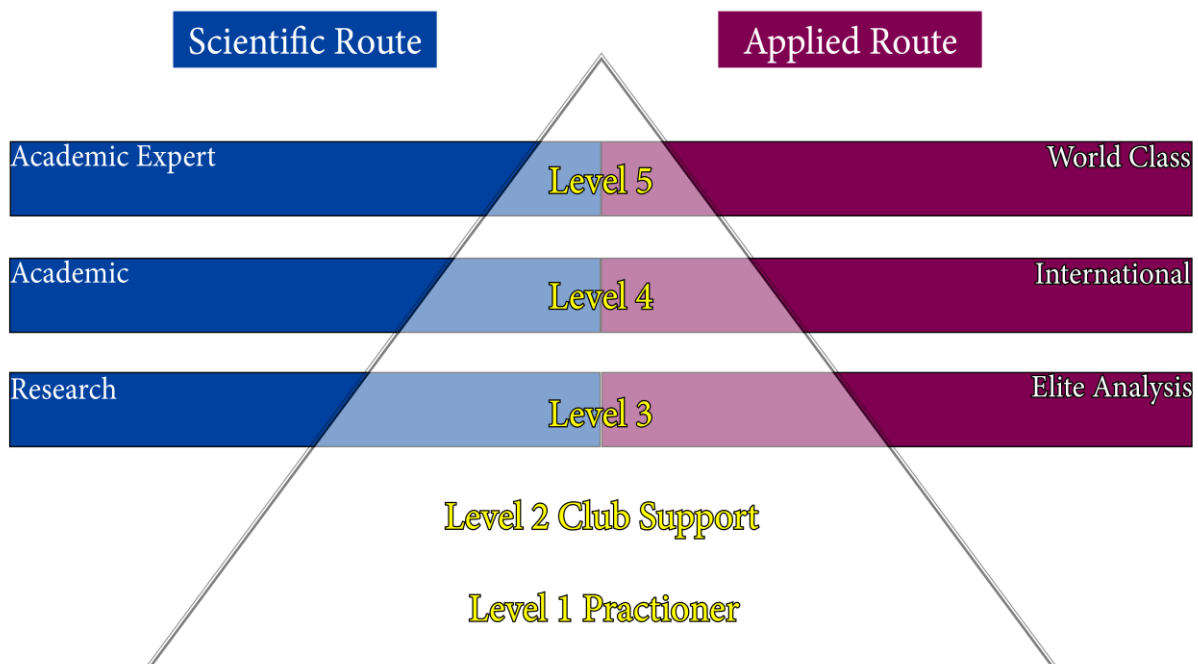

Figure 1. ISPAS Accreditation Pathway (Revision 2, March 2013)

Table 1. Required competencies for accreditation (Revision 1, Jan 2016)

Level 1 and 2
